I am a recent graduate from the University of York with First-Class Honours in BSc Interactive Media. Now, I am undertaking an MSc in Game Programming at Falmouth University for the next year.

I am enthusiastic about interactive and innovative game development and particularly enjoy team collaboration.

Relevant Skills

- C# and Unity Game Engine
- C++ and Unreal Game Engine
- Kotlin and Android Studio
- Processing (Java)
- HTML, CSS, and JavaScript
- Autodesk Maya and Blender
- Adobe Creative Suite (XD, After Effects, Photoshop, Premiere Pro, Audition)
- User Experience design and team working

Work Experience

INTERACT 19th IFIP TC13 International Conference and BCS Human-Computer Interaction Conference, August 2023

I worked as a student volunteer for both the Interact conference <https://interact2023.org> and the BCS HCI conference <https://bcshci2023.org> held at the University of York. With tasks such as helping set up demos and workshops, monitoring and facilitating the hybrid-online sessions, and helping with audio-visual equipment.

Zonkey Solutions/Westdale Nurseries, Sep 2020 – Feb 2021

During my gap year, I worked alongside Bath-based web designer and developer Zonkey Solutions www.zonkey.co.uk to relaunch the website for horticulture business Westdale Nurseries www.westdalenurseries.co.uk.

The objective was to increase online sales during the pandemic. By improving the layout and imagery, we made the website more visually appealing and greatly improved the customer experience online.

Shiner, June 2019

I worked with the digital marketing team of the international sports goods and apparel business www.shiner.co.uk, which harnesses the power of digital media

through apps and websites to reach a global consumer base. The company actively uses social media campaigns to capture customer feedback to help refine the product offering.

Macmillan Publishing, November 2019

I worked with Macmillan Publishing in London on an acting assignment. This project supported an initiative to teach English to international students using digital media through interactive videos in their textbooks.

Volunteering, May 2019

As part of my Duke of Edinburgh award, I raised over £1,600 for the Bristol-based charity for seriously ill children. www.togetherforshortlives.org.uk

Higher Education

Falmouth University
MSc Game Programming

2024-Present

University Of York
BSc Interactive Media

2021-2024
